SUMMER FRIDAY PICKS

Pick
No.1/12

Cover for holidaying colleagues
— and grow in confidence.

www.customsclear.net

The First Summer Friday brings you a curated selection of premium CustomsClear content – insightful articles and engaging videos – all centred around a key question: What expertise should a customs professional possess?

The answer, of course, varies depending on your organisation's profile, industry, department, and level of seniority. Yet, the dynamic and increasingly complex landscape in which we work demands that all of us carefully consider how to shape a customs and trade compliance team that is prepared for the future – and how each of us can contribute to its success. That is the purpose of this selection.

Enjoy picking up new insights and building your knowledge along the way!

Your feedback and comments are always welcome at info@customsclear.net

Our expertise

The CustomsClear team brings together professionals in the following areas:

- Customs law and regulations
- International trade and compliance
- Digital education and knowledge management
- Artificial intelligence and software development

Our mission

At CustomsClear, our mission is to provide all participants in the global supply chain with easy access to the knowledge necessary for the smooth, compliant and sustainable movement of goods across customs-controlled borders.

Innovation – information and knowledge

Founded as a platform for both those seeking knowledge and those wishing to share it, CustomsClear has built a global network of customs and trade compliance experts. The experts share their expertise through articles, videos, courses, live events and training sessions.

We are currently developing an expert-supervised regulatory library, alongside AI solutions that offer tailored access to regulatory content and compliance checks. Acknowledging that domain knowledge is essential to interpreting regulations effectively, we are also building a personalised, adaptive and continuous learning system to support professionals across the sector. This ongoing innovation is co-funded by the European Union.
